Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with part 211 of title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Grand Canyon Railway

[Waiver Petition Docket Number FRA-2005-22129]

The Grand Canyon Railway (GCRX) seeks a waiver of compliance with the requirements of 49 CFR 221.14, [Rear End Marking Device], published July 10, 1986. The regulation require trains be equipped with at least one rear end marking device, which has been approved by FRA in accordance with the procedures included in Appendix A of the regulation. GCRX seeks to use a ``Adlake No. 270" as the rear end marking device on their excursion passenger trains, citing that the historical value would add to the ambiance of their historic railroad.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.
